Subject Index to Volume 25

A

Ablation, catheter, of incessant bundle branch re-entry ventricular tachycardia (Letter), 172

Ablation, radiofrequency, for supraventricular tachycardia, radiation exposure to patient and operator during, 490

Ablation, radiofrequency catheter, of atrial tachycardia, 127

Aboriginal and non-Aboriginal Western Australians in their sixth and seventh decades, comparative hospitalisation and mortality rates of, 27

Aboriginals, Australian, in Perth, WA, stroke among, 1988-1992 (Letter), 55

Aborigines, Australian, systemic lupus erythematosus: different prevalences in different populations of (Letter), 182

Aborigines, Australian, systemic lupus erythematosus (SLE): different prevalences in different populations of (Letter), 736

ACE inhibitor angio-oedema, report on – a QA perspective (Editorial), 189

ACE inhibitors, and angio-oedema (Letter), 747

Acquired immune deficiency syndrome (AIDS), cytomegalovirus appendicitis in a patient with (Letter), 61

Acquired immunodeficiency syndrome (AIDS), acute renal failure due to sulphadiazine in a patient with (Letter), 58

Activated protein C resistance (ACP) and inherited factor V (FV) mis-sense mutation in patients with venous and arterial thrombosis in a haematology clinic, 151

Acute interstitial nephritis due to *Chlamydia psittaci* (Letter), 365

Acute myocardial infarction, the accuracy of hospital records and death certificates for, 316

Acute myocardial infarction in Perth, Western Australia between 1984 and 1993, trends in the home management of non-fatal, 204

Acute rejection in renal transplant biopsies, validation of the Banff criteria for, 681

Acute renal failure due to sulphadiazine in a patient with acquired immunodeficiency syndrome (AIDS) (Letter), 58

Acute renal failure following cardiac surgery: incidence, outcomes and risk factors, 284

Acute renal failure in the 1990s, post cardiac surgery (Editorial), 278

Adhesion, platelet, the molecular mechanism of, 822

Adhesion molecules in health and disease, 720

Adjuvant chemotherapy for non-metastatic osteosarcoma of the extremities in two New Zealand cancer centres, 224

Adrenal Cushing's syndrome, in association with Maffucci's syndrome (Letter), 544

Adrenalitis (CMV) and CMV pneumonitis, under-recognition of: clinico-pathological study of cytomegalovirus (CMV) in AIDS autopsies, 503

AIDS. *see also* Acquired immunodeficiency syndrome AIDS autopsies, clinico-pathological study of cytomegalovirus (CMV) in: under-recognition of CMV pneumonitis and CMV adrenalitis, 503

Alcohol-related mortality in New Zealand, a quantification of, 5

Aldosterone and its mechanism of action: more questions than answers, 800

Allergic diseases, and asthma, prevalence of, related to emigration (Letter), 177

Alpha-1-Antitrypsin P Lowell: a normally functioning variant present in low concentration, 695

Alzheimer's disease and other dementias, peripheral blood lymphocyte, subset distribution and function in patients with, 212

Aminoglycoside dosing, experience of once-daily, using a target area under the concentration-time curve, 230

Aminoglycoside dosing: time to change (Letter), 175

Anaemia, haemolytic, a case of bioprosthetic mitral valve dysfunction presenting as (Letter), 543

Anaphylactic reaction to intravenous cyclophosphamide (Letter), 59

Angina pectoris, is perhexiline essential for the optimal management of?, 111

Angio-oedema, report on ACE inhibitor – a QA perspective (Editorial), 189

Angio-oedema and ACE inhibitors (Letter), 747

Angio-oedema and angiotensin-converting enzyme inhibitor therapy, failure to recognise the association of life-threatening, 241

Angiotensin-converting enzyme inhibitor therapy, failure to recognise the association of life-threatening angio-oedema and, 241

Anterior descending artery, proximal left, directional coronary atherectomy for lesions of the,: initial clinical results, complications and histopathological findings, 676

Anti-neutrophil cytoplasmic antibodies (ANCA) and renal diseases, 40

Anticonvulsants in the management of epilepsy, the role of newer, 114

Antiretroviral therapy of human immunodeficiency virus type-1 (HIV-1) infection, 344

Apoptosis, target cell, induced by cytotoxic T cells and natural killer cells involves synergy between the pore-forming protein, perforin, and the serine protease, granzyme B, 793

Appendicitis, cytomegalovirus, in a patient with acquired immune deficiency syndrome (AIDS) (Letter), 61

Arboviruses, Australian,: at what risk New Zealand?, 666

Arrhythmia, cardiac, and prolonged QT interval, with, hypokalaemic periodic paralysis (Letter), 549

Arterial, and venous, thrombosis in a haematology clinic, activated protein C resistance (ACP) and inherited factor V (FV) mis-sense mutation in patients with, 151

Artery, proximal left anterior descending, directional coronary atherectomy for lesions of the,: initial clinical results, complications and histopathological findings, 676

Aseptic meningitis, recurrent (Letter), 264

Asthma, beta-2 agonists in – the Thoracic Society of Australia and New Zealand, 358

Asthma, drug delivery in: a comparison of spacers with a jet nebuliser, 324

Asthma, smoking more – enjoying the (Editorial), 3

Asthma and allergic diseases, prevalence of related to emigration (Letter), 177

Asthma in a representative population sample, smoking-related beliefs and behaviour among adults with, 12

Asthma management and mode of acquisition of inhaled bronchodilators, 496

Asthma spoils from polyunsaturated oils? (Letter), 63

Atherectomy, in the era of stents, directional coronary (Editorial), 661

Atherectomy, directional coronary, for lesions of the proximal left anterior descending artery: initial clinical results, complications and histopathological findings, 676

Atrial tachycardia, radiofrequency catheter ablation of, 127

Australasian multicentre phase II study of paclitaxel (Taxol*) in relapsed ovarian cancer, 337

Australia, 1970-1980, epidemiology of Jakob-Creutzfeldt disease in, 243

Australia, change in zidovudine prescribing practices in, 1991-1993, 239

Australia, protein crystallography in, 876

Australian and New Zealand Journal of Medicine: 1994 (Editorial), 1

Australian arboviruses: at what risk New Zealand?, 666

Australian epidemic, an – flucloxacillin hepatitis, 195

Australian epidemic: flucloxacillin hepatitis, an (Letter), 537

Australia's first HeartMate recipient (Letter), 535

Autoantigen recognition, and immune surveillance, in the central nervous system, 784

Autologous blood stem cell transplantation for haematological malignancy: treatment-related mortality of 2%, 483

Autopsies, AIDS, clinico-pathological study of cytomegalovirus (CMV) in: under-recognition of CMV pneumonitis and CMV adrenalitis, 503

B

Bacterial peritonitis, spontaneous, *Clostridium perfringens* (Letter), 366

Banff criteria, validation of the, for acute rejection in renal transplant biopsies, 681

BCG in bladder cancer – a warning (Editorial), 275

Beta-2 agonists in asthma – the Thoracic Society of Australia and New Zealand, 358

Beta-globin cluster, human, developmental regulation of the, 865

Biochemical approach to mammalian signal transduction, a combined genetic and, 845

Biological false reactivity in a hepatitis B surface antigen enzyme immunoassay, IgA deficiency in Sydney blood donors and (Letter), 738

Bioprosthetic mitral valve dysfunction, a case of, presenting as haemolytic anaemia (Letter), 543

Biopsies, renal transplant, validation of the Banff criteria for acute rejection in, 681
Biopsy, brain, and leptomeningeal, in chronic meningitis, 703
Biopty™ gun, outpatient liver biopsy using ultrasound guidance and the, is safe and cost effective, 209
Bladder cancer, BCG in – a warning (Editorial), 275
Bleeding, gastrointestinal, testicular cancer presenting as (Letter), 367
Blood donors, Sydney, IgA deficiency, and biological false reactivity in a hepatitis B surface antigen enzyme immunoassay (Letter), 738
Blood lymphocyte, peripheral, subset distribution and function in patients with Alzheimer's disease and other dementias, 212
Blood stem cell transplantation, autologous, for haematological malignancy: treatment-related mortality of 2%, 483
Bone marrow transplantation, a prospective study of screening upper gastrointestinal endoscopy prior to and after, 32
Bowel symptom questionnaire, initial validation, and measurement of chronic gastrointestinal symptoms in Australians, 302
Brain biopsy, and leptomeningeal, in chronic meningitis, 703
Breast cancer, improving treatment for (Editorial), 461
Breast cancer, phase II study of high dose epirubicin in combination with cyclophosphamide in patients with, 474
Breast cancer, the information needs of patients with, 521
Breast cancer and variegate porphyria, cytotoxic chemotherapy and radiotherapy in a patient with (Letter), 742
Bronchiolitis obliterans organising pneumonia: a clinical and radiological review, 140
Bronchodilators, inhaled, asthma management and mode of acquisition of, 496
Bronchoscopy, the role of, in the diagnosis and treatment of pulmonary disease in HIV-infected patients, 133
Bypass grafting, coronary artery, upper haemorrhage gastrointestinal, following, 297

C
Cancer, BCG in bladder – a warning (Editorial), 275
Cancer, breast, and variegate porphyria, cytotoxic chemotherapy and radiotherapy in a patient with (Letter), 742
Cancer, breast, improving treatment for (Editorial), 461
Cancer, breast, phase II study of high dose epirubicin in combination with cyclophosphamide in patients with, 474
Cancer, breast, the information needs of patients with, 521
Cancer, colorectal, early detection, screening and surveillance for, 236
Cancer, relapsed ovarian, Australasian multicentre phase II study of paclitaxel (Taxol*) in, 337
Cancer, testicular, presenting as gastrointestinal bleeding (Letter), 367
Cancer centres, New Zealand, adjuvant chemotherapy for non-metastatic osteosarcoma of the extremities in two, 224
Cancer screening, a brave new world (Letter), 255
Cancer screening and employment (Letter), 256
Candida tropicalis infection in childhood leukaemia (Letter), 545
Capillaroscopy, nailfold, prevalence, subset characteristics and: a study of scleroderma in South Australia, 688
Cardiac arrhythmia and prolonged QT interval, with, hypokalaemic periodic paralysis (Letter), 549
Cardiac surgery, acute renal failure following: incidence, outcomes and risk factors, 284
Cardiac surgery, post, acute renal failure in the 1990s (Editorial), 278
Cardiology, new devices in interventional: a European perspective, 162
Cardiomyopathy, assessment of idiopathic dilated, using positron emission tomography (PET), 245
Cardiovascular mortality, regional differences in cardiovascular risk factor prevalence in Tasmania,: are they consistent with the increased?, 290
Cardiovascular risk factor prevalence in Tasmania, regional differences in: are they consistent with the increased cardiovascular mortality?, 290
Catheter, radiofrequency, ablation of atrial tachycardia, 127
Catheter ablation of incessant bundle branch re-entry ventricular tachycardia (Letter), 172
cbl oncogene: a novel substrate of protein tyrosine kinases, 859
Cell apoptosis, target, induced by cytotoxic T cells and natural killer cells involves synergy between the pore-forming protein, perforin, and the serine protease, granzyme B, 793
Central nervous system, immune surveillance and autoantigen recognition, in the, 784
Cervical myelopathy with late onset progressive motor neuron disease: electrical injury (Letter), 263
Chelation therapy and factors influencing mortality in lead intoxicated petrol sniffers, the efficacy of, 197
Chemcard cholesterol test and laboratory cholesterol measurements, comparison of, 716
Chemotherapy, adjuvant, for non-metastatic osteosarcoma of the extremities in two New Zealand cancer centres, 224
Chemotherapy, cytotoxic, and radiotherapy in a patient with breast cancer and variegate porphyria (Letter), 742
Chemotherapy, rectal administration of ondansetron in uncontrolled emesis induced by (Letter), 538
Children, renal transplantation in young, 122
Chinese medicinal oil ('Red Flower Oil'), severe salicylate poisoning associated with the intake of (Letter), 57
Chinese traditional medicines, warfarin interactions with: danshen and methyl salicylate medicated oil (Letter), 258
Chlamydia psittaci, acute interstitial nephritis due to (Letter), 365
Cholestasis, probable ciprofloxacin induced (Letter), 541
Cholesterol test, Chemcard, and laboratory cholesterol measurements, comparison of, 716
Chronic gastrointestinal symptoms in Australians, initial validation of a bowel symptom questionnaire and measurement of, 302
Chronic meningitis, leptomeningeal and brain biopsy in, 703
Ciprofloxacin, probable, induced cholestasis (Letter), 541
Clinical and radiological review: Bronchiolitis obliterans organising pneumonia, 140
Clostridium perfringens spontaneous bacterial peritonitis (Letter), 366
Clozapine-induced neuroleptic malignant syndrome, disseminated intravascular coagulopathy and thrombocytopenia associated with (Letter), 368
Coagulopathy, disseminated intravascular, and thrombocytopenia associated with clozapine-induced neuroleptic malignant syndrome (Letter), 368
Colorectal cancer, early detection, screening and surveillance for, 236
Colour flow imaging, and doppler, to demonstrate origin of the left main coronary artery from the pulmonary trunk, use of trans-oesophageal echocardiogram with (Letter), 546
Common variable immunodeficiency associated with nodular regenerative hyperplasia of the liver, a case of (Letter), 742
Concentration-time curve, experience of once-daily aminoglycoside dosing using a target area under the, 230
Contraception, hormonal male: progress and prospects for the 21st century, 808
Coronary artery, left main, from the pulmonary trunk, use of trans-oesophageal echocardiogram with doppler and colour flow imaging to demonstrate origin of the (Letter), 546
Coronary artery, left main, from the pulmonary trunk, use of trans-oesophageal echocardiogram with doppler and colour flow imaging to demonstrate origin of the (Letter), 546
Coronary artery bypass grafting, upper gastrointestinal haemorrhage following, 297
Coronary artery disease by dobutamine stress echocardiography, assessment of, 707
Coronary atherectomy, directional, for lesions of the proximal left anterior descending artery: initial clinical results, complications and histopathological findings, 676
Coronary atherectomy, directional (Editorial), 661
Coronary disease, determinants of severity of left ventricular dysfunction in Australian men and women, aged 65 years or less, with, 309
Coronary heart disease, treatment of hyperlipidaemia in the primary prevention of (Letter), 178
Cost effective, outpatient liver biopsy using ultrasound guidance and the Biopty™ gun is safe and, 209
Counselling, among those discharged from hospital with ischaemic heart disease, a randomised controlled trial of community-based, 362
Crohn's disease, deterioration of pseudoxanthoma elasticum in a patient with active (Letter), 739
Crohn's disease presenting as toxic megacolon in an elderly man (Letter), 539
Crystallography, protein, in Australia, 876
CTP-binding protein C12 with a protein kinase A-like kinase in mouse fibroblasts, interaction of the, 831
Cushing's syndrome, adrenal, in association with Maffucci's syndrome (Letter), 544
Cyclophosphamide, intravenous, anaphylactic reaction to (Letter), 59
Cyclophosphamide in patients with advanced breast cancer, phase II study of high dose epirubicin in combination with, 474

Cytomegalovirus appendicitis in a patient with acquired immune deficiency syndrome (AIDS) (Letter), 61
Cytomegalovirus (CMV) in AIDS autopsies, clinico-pathological study of: under-recognition of CMV pneumonitis and CMV adrenalitis, 503
Cytotoxic chemotherapy and radiotherapy in a patient with breast cancer and variegate porphyria (Letter), 742
Cytotoxic lymphocyte-mediated immunotherapy, 852
Cytotoxic T cells and natural killer cells involves synergy between the pore-forming protein, perforin, and the serine protease, granzyme B, target cell apoptosis induced by, 793

D
Danshen and methyl salicylate medicated oil: warfarin interactions with Chinese traditional medicines (Letter), 258
Death certificates, and hospital records, the accuracy of, for acute myocardial infarction, 316
Deaths in a heat wave (Editorial), 109
Dementias, other, and Alzheimer's disease, peripheral blood lymphocyte, subset distribution and function in patients with, 212
Dermatomyositis with lung involvement in a patient treated with simvastatin (Letter), 745
Detection, early, screening and surveillance for colorectal cancer, 236
Detection of proteinuria and microalbuminuria in insulin and non-insulin dependent diabetes, the implications of the, 157
Developmental regulation of the human beta-globin cluster, 865
Diabetes, the implications of the detection of proteinuria and microalbuminuria in insulin and non-insulin dependent, 157
Diabetes, understanding the pathogenesis of type 2: can we get off the metabolic merry-go-rounds?, 870
Diabetic subjects, the effects of increasing doses of enalapril on insulin sensitivity in normotensive non- insulin dependent, 698
Disease susceptibility, genetic analysis of, 757
Disseminated histoplasmosis: successful maintenance therapy with oral fluconazole (Letter), 56
Dobutamine stress echocardiography, assessment of coronary artery disease by, 707
Doctor shortage, rural, finding solutions to: the roles of selection versus undergraduate medical education at Newcastle, 512
Doctors, referring, writing to, after a new patient consultation: what is wanted and what was contained in letters from one medical oncologist, 479
Doctors, writing to referring (Editorial), 463
Doppler and colour flow imaging to demonstrate origin of the left main coronary artery from the pulmonary trunk, use of trans-oesophageal echocardiogram with (Letter), 546
Doppler and colour flow imaging to demonstrate origin of the left main coronary artery from the pulmonary trunk, use of trans-oesophageal echocardiogram with (Letter), 546
Drug delivery in asthma: a comparison of spacers with a jet nebuliser, 324
Drug resistance in malaria, mechanisms of, 837
Drugs, the surface glycoconjugates of parasitic protozoa; potential targets for new, 768

E
Echocardiogram, transoesophageal, use of, with doppler and colour flow imaging to demonstrate origin of the left main coronary artery from the pulmonary trunk (Letter) 546
Echocardiography, dobutamine stress, assessment of coronary artery disease by, 707
Elasticum, pseudoxanthoma, deterioration of, in a patient with active Crohn's disease (Letter), 739
Elderly, fractures of the tibial plateau in the, as a cause of immobility (Letter), 179
Electrical injury: cervical myelopathy with late onset progressive motor neuron disease (Letter), 263
Emesis, uncontrolled, induced by chemotherapy, rectal administration of ondansetron in (Letter), 538
Emigration, prevalence of asthma and allergic diseases related to (Letter), 177
Employment, cancer screening and (Letter), 256
Enalapril, the effects of increasing doses of, on insulin sensitivity in normotensive non-insulin dependent diabetic subjects, 698
Endoscopy, upper gastrointestinal, prior to and after bone marrow transplantation, a prospective study of screening, 32
Enzyme immunoassay, IgA deficiency in Sydney blood donors and biological false reactivity in a hepatitis B surface antigen (Letter), 738
Enzyme inhibitor therapy, failure to recognise the association of life-threatening angio-oedema and angiotensin-converting, 241
Epidemic, an Australian – flucloxacillin hepatitis, 195
Epidemiology of Jakob-Creutzfeldt disease in Australia, 1970-1980, 243
Epilepsy, the role of newer anticonvulsants in the management of, 114
Epirubicin, phase II study of high dose, in combination with cyclophosphamide in patients with advanced breast cancer, 474
Erythematosus, systemic lupus: different prevalences in different populations of Australian Aborigines (Letter), 182
Erythematosus, systemic lupus (SLE): different prevalences in different populations of Australian Aborigines (Letter), 736
Ethnicity, and physical activity, hydroxyvitamin D is related to, but not obesity in a multicultural workforce – serum 25, 218
European perspective, new devices in interventional cardiology, 162

F
Factor IX (FIX) concentrate in patients with 'haemophilia B' undergoing surgery, the use of a highly purified, 40
Factor V (FV), inherited, mis-sense mutation in patients with venous and arterial thrombosis in a haematology clinic, activated protein C resistance (ACP) and, 151
Factor VIII infusion, treatment of haemophilia A by continuous, 37
Fibroblasts, mouse, interaction of the CTP-binding protein C12 with a protein kinase A-like kinase in, 831
5-Fluorouracil with folates, interaction of (Letter), 60
Flucloxacillin hepatitis – an Australian epidemic, 195
Flucloxacillin hepatitis: an Australian epidemic (Letter), 537
Fluconazole, oral, disseminated histoplasmosis: successful main-tenance therapy with (Letter), 56
Folates, interaction of 5-Fluorouracil with (Letter), 60
Fractures, hip, in males (Letter), 548
Fractures of the tibial plateau in the elderly as a cause of immobility (Letter), 179
Fructose, hereditary, intolerance in an adult (Letter), 259

G
Gallstones, technologies for treatment of – worthwhile changes and some concerns, 518
Gastritis, lymphocytic, treatment of, with H2 receptor antagonist (Letter), 180
Gastrointestinal, chronic, symptoms in Australians, initial validation of a bowel symptom questionnaire and measurement of, 302
Gastrointestinal bleeding, testicular cancer presenting as (Letter), 367
Gastrointestinal endoscopy, upper, prior to and after bone marrow transplantation, a prospective study of screening, 32
Gastrointestinal haemorrhage, upper, following coronary artery bypass grafting, 297
Gene therapy, human, 280
Genetic analysis of disease susceptibility, 757
Genetic and biochemical approach to mammalian signal transduction, a combined, 845
Global change, health effects of: doctoring the planet, 46
Glycoconjugates, surface, of parasitic protozoa; potential targets for new drugs, 768
Grafting, bypass, coronary artery, upper haemorrhage gastrointestinal, following, 297
Granulomatous meningeal mass as the initial presentation of Wegener's granulomatosis (Letter), 369
Granzyme B, target cell apoptosis induced by cytotoxic T cells and natural killer cells involves synergy between the pore-forming, protein perforin, and the serine protease, 793

H
H2 receptor antagonist, treatment of lymphocytic gastritis with (Letter), 180
Haematological malignancy, autologous blood stem cell transplan-tation for: treatment-related mortality of 2%, 483
Haematology clinic, activated protein C resistance (ACP) and inherited factor V (FV) mis-sense mutation in patients with venous and arterial thrombosis in a, 151
Haemolytic anaemia, a case of bioprosthetic mitral valve dysfunction presenting as (Letter), 543

Haemophilia A, treatment of, by continuous factor VIII infusion, 37
